

Accessibility Statement

This Accessibility Statement applies to the following websites, collectively operated under the Yardley Wealth Management brand:

- Yardley Wealth Management (yardleywealth.net)
- Yardley Estate Planning (yardleyestate.net)
- Not Just Numbers Podcast (notjustnumberspodcast.com)

Yardley Wealth Management, Yardley Estate Planning, and the Not Just Numbers Podcast value digital accessibility and strive to make our websites usable by people of all abilities, including those with visual, auditory, motor, or cognitive disabilities. We believe everyone should have the opportunity to access information about their financial future, and we are working on an ongoing basis to improve the experience across each of our websites.

Our Goal

We are working toward conformance with level AA of the World Wide Web Consortium (W3C) Web Content Accessibility Guidelines, version 2.1 or later (“WCAG 2.1/2.2 AA”), across each of the websites listed above. These guidelines describe how to make web content more accessible to people with disabilities. We recognize this is an ongoing process rather than a completed state, and that our three sites — built on different platforms and hosting environments — may be at different points in that process at any given time.

Accessibility Practices

As a general practice, we try to:

- Use clear heading structure and descriptive link text to support screen reader navigation
- Maintain sufficient color contrast where possible
- Support keyboard navigation for menus, forms, and interactive tools
- Provide alt text for meaningful images and charts
- Offer transcripts for *Not Just Numbers* podcast episodes for those who are deaf, hard of hearing, or prefer to read rather than listen
- Periodically review our sites for accessibility issues, using both automated scanning and manual review, and address issues as they are identified

These practices reflect an ongoing, good-faith effort, and we do not represent that any of our websites have achieved full or complete conformance with WCAG 2.1 AA, WCAG 2.2 AA, or any other standard at this time.

Third-Party Content

Our websites may link to or include content from third parties, such as client portals, scheduling tools, document repositories, and podcast distribution platforms (Apple Podcasts, Spotify, YouTube, and similar services). These third parties operate independently of us, and we have no control over — and make no representation regarding — their accessibility.
